

Idea 2 - Sprinkle

Sprinkle is a unique small carbonater. With Sprinkle you can enjoy a sprin-
kly water anytime, anywhere. Sprinkle uses small Co2 tanks, not much
bigger than a regular battery. The size of Sprinkle makes it easy to use,
and makes it possible to bring it along in a small bag, or even in your
pocket. Sprinkle will save the user a lot of money, and will save the na-
ture from a lot of plastic, by making it possible for the user to reuse their
bottles. Besides Sprinkle, we want to make a plastic bottle from reused
plastic. The bottle is meant to be used with Sprinkle, to make it even easi-
er for the user to save the environment.
