

Idea 3 - ABS "Anti Blister Shoes

ABS (Anti Blister Shoes) A pair of shoes that, using an advanced spring system in the sole, removes friction between the foot and the ground, eliminating the very thing that causes blisters, friction. If successful, these shoes will have many applications, including medical treatment and care for weakened or sick skin, but also feet comfortability and well-ness during long time use, without causing any blisters. (given the user is wearing socks inside the shoes)

Competence needs

Shoemaking experience

Engineering experts (spring system)

Design and wear ability designer

A foot expert or therapists
